

Hello Summer

Hi my Friends.

Summer is in full swing now and many here are 'staycationing'. We are blessed to have some great outdoor places to go for fun day trips.

I have been enjoying my stay here in Oregon but it has been hard not to enjoy my church family on Sundays. I have stayed home because of my age being a factor for this virus and I don't want to get sick. I follow on-line each Sunday. I have heard from the U S Embassy that Kenya is open to international flights August 1st. I am planning to leave end of Sept. The month of Sept. I also plan to travel to NV and CA to visit my daughter's and son's families.

The chaos here in American has been difficult for me to live with. I know that I am not alone. My friends in Kenya are having their fair share of difficulties with lockdowns and school closures. My Kenyan 'son' is doing classes on-line, he attends a private school. Most of the government schools are closed. But the country, especially in the big cities, require masks and distancing. My church does meetings on-line also.

I'm still doing classes on phone. My lady, Griselia in Zambia has almost completed the lessons. Mercy in Malawi has had health issues and connection issues but we persevere. Keep her in prayer please. And I will be resuming classes with Grace in Kenya...we started before I left but she wants to try to complete them on the phone now. Getting our schedules to align has not been easy. I also help with classes here in Albany when I am home. It is my joy to do the ARMS classes with women. They bring hope and joy to each of the ladies. They always minister to me also.

Blessings to you all and don't forget God is in Charge. He is our Hope and Stay.

Claudia
